Society  
India

## Marmore – Silver Employer Award from the CFA Society India

Marmore MENA Intelligence, a wholly owned subsidiary of Markaz, Kuwait Financial Centre was felicitated by the CFA Society India as a 'Silver Employer' under their 'Employer Recognition Program' on 5th April 2024 in Mumbai, India. Mr. M.R. Raghu, CEO of Marmore MENA Intelligence and the Economic Advisor for Markaz received the award at the event. Marmore was among 20 organizations recognized for collaborating with the CFA Institute and CFA Society India, after an evaluation of over 400 employers in India.

Mr. Raghu obtained his CFA Charter from the CFA Institute in 2003 and has actively been associated with the CFA Institute as a volunteer since. He was the founding board member of CFA Bahrain Society and founding President of CFA Kuwait Society. He was also a member of Education Advisory

Committee of CFA Institute from 2012 until 2019. This commitment to the CFA Institute has continued to play a vital part in the operating environment at Marmore.

Considering the nature of projects delivered by Marmore with the combination of finance and research, the knowledge provided by the CFA Program proves conducive to the Marmore team in excelling at their work. Candidates who have already obtained the CFA Charter or in the process of appearing for their CFA Level 2&3 exams are a part of the Marmore team. To this end, the company was one of the key participants in the CFA Career Day program held in Chennai on January 20, 2024, providing career guidance and insights about opportunities for CFA candidates and aspirants.

Marmore is also committed to the upskilling of its employees, both in terms of monetary

compensation and providing a diverse learning environment. The company encourages its employees to pursue the CFA Program by actively reimbursing the fees paid upon successful completion of the CFA program.

The environment offers an encouraging learning space with a combination of experienced finance professionals and

budding talent working on real time research-based consulting projects.

We would like to thank the CFA Institute and the CFA Society India for recognizing Marmore's role and collaboration with the CFA society. We are committed to furthering this partnership in the future in the areas of talent acquisition, training, and internships.
